Happy Holidays! We thought we'd send more pictures and fewer words this year!

We're all well – Juliette (8th grade) is enjoying skating and worked with Olympic skater, Elvis Stojko, at her camp this year. Graham (6th grade) is now an enthusiastic basketball player. Jana is teaching children with physical and health disabilities at 15 different schools. Michael is working part-time for Accord Solutions as software engineer/visualization expert. We're fortunate he can work largely from home and can continue his other job as Mr. Mom and chauffeur! Antony & Dianna have all three kids in elementary school now. Antony is at SAIC and Dianna is a nursing assistant. Colin & Rene continue at Qualcomm and Austin at 2 ½ is all set to enjoy the full experience of the holidays. Jana's folks and Jamee are doing well. They are very happy that Jamee's helper, Vanessa (from France), got her visa extended.

This summer we drove to Montana again – this time with Michael too. We stayed at Grand Tetons, then joined Jim and Marilyn for the Power's family reunion at their place 25 miles down the dirt road behind Ruby Dam.

We went on to stay with Vivian at the ranch near Belt and up at the Highwoods campground.

We tried our best to stack a few hay bales. Lori took us doubled up to take salt high in the mountains. Sorry - no photos of Jana sliding off the back end of the horse or holding Stubby's tail so he could pull her uphill!

Lynda & Russ took us all for a wonderful canoe trip on the Missouri. The kids were hoping we would fall in, but it was very calm. Many thanks to everyone for a great time. It's time to come see **us** now!

We wish all friends and family the best of health and happiness for the holiday season and the coming year.

With much love from Michael, Jana, Juliette and Graham
